

## Multiply - Count and Grow

Course Name	Start Date	End Date	Site	Total Fees
Multiply - Count and Grow - FREE 6 week course			ALLOTMENTS, SOMERVELL RD	0.00

### Course Description

#### Multiply Project

#### 6 Week Count and Grow Course at Somervell Allotments, Ashby.

Would you like to gain knowledge about seasonal vegetables and herbs and have an understanding of the different growing months, and gain hands on experience in sustainable gardening practices?

This course is designed to increase your confidence in using Maths through structured activities and informal discussions.

Additionally, it seeks to promote sustainability by encouraging you to take home produce and apply your new skills in your own gardens.

This course also aims to foster a sense of community among learners, creating a support network for ongoing learning and gaining confidence in using Maths in gardening activities.

If you are aged 19 and over and who don't have maths GCSE at grade C (or equivalent), please show your interest by clicking the "enquire" button. Alternatively, call our customer service team on 01724 297146 for more details.

#### Progression Route

You can progress onto another Multiply course, or you may wish to move on to a Maths qualification after building your confidence.
